

YOUR GUIDE TO THE NEW MARKET WATCH

Readers of the Toronto Real Estate Board's Market Watch will see numerous upgrades to this month's issue. We believe that these enhancements will make the publication even more useful to our Members, the media, and the general public. Here is a brief summary of the changes inside.

Graphical Enhancements

In response to Member wishes, a number of graphical changes have been made to the report:

- 1) On the Front page, a bar graph giving a Toronto-wide figure for Days on Market has been added. In addition, placed throughout the body of the report is a line graph showing this same statistic for the East, West, Central, and North areas.
- 2) Placed throughout the report, a line graph giving the sales to active listing ratio for the East, West, Central, and North areas appears. This figure is the result of dividing the monthly sales for an area into the number of listings active in that area at the end of the month. The closer the figure gets to one-hundred percent, the "hotter" the market.
- 3) Toronto-wide active listings and sales are now given by line graphs on the last page of the report. They are joined there by a line graph showing the annual Toronto-wide average price for the past ten years, as well as the current year-to-date average price. New listings results are no longer presented in graph form, although the current and one-year-ago figures are given in chart form on page one's "Housing Market Indicators" section.
- 4) The TREB Service Area map has been moved to page two.

Statistical Additions

Beginning with this month's edition, the market Watch presents several new statistics:

- 1) On the front page of the report, the Market Watch will now give the percentage of list-to-sale price by house type in the "Single Family Residential Breakdown" section, beneath the pie chart. The new statistic is given in a column headed "%".
- 2) In the area breakdown of house sales by type, several new statistics have been added. For each house type (detached, semi-detached, and so forth) in each MLS district, an "active listing at month-end" figure will now be given (called "ACT"), in addition to a "percentage of sales to active listings" (called "% S-A") figure, and an "average percentage of list to sale price" figure (called "Av. % List").
- 3) In addition, for the sake of readability, the order in which some of the statistics are presented inside the report has been changed. The new order is as follows: for each area (East, West, Central, and North), monthly statistics are given, then year-to-date figures, and then a breakdown by house-type. Toronto-wide Grand Totals are now given on the last page of the report.

Four in a Row! September Continues String of Record Months

TORONTO — Wednesday, October 8, 2003.

The 6,751 sales transacted through the TorontoMLS system last month were the most ever reported in a September, TREB President, Cynthia Lai announced today.

"This figure is up an incredible 15 per cent over last year's 5,846 sales, and September 2002 was our previous best result for the month," the President said. "This makes four record months in a row and the best summer market ever recorded." Ms. Lai also noted that sales were up three per cent from August.

Prices bounced back in September, to \$297,398 from August's figure of \$285,366, a four per cent increase. They were also up five percent over September of 2002.

Breaking down the total, 2,567 sales were reported in TREB's 28 West districts and averaged \$275,292; 1,084 sales were reported in the 14 Central districts and averaged \$395,453; 1,370 sales were reported in the 23 North districts and averaged \$326,455; and 1,730 sales were

reported in TREB's 21 East districts and averaged \$244,802. ■

NEIGHBOURHOOD CORNER

East York

Thus far in 2003 East York has registered 1,102 sales, down six per cent from the 1,168 figure recorded for the first nine months of last year. Of these, 547 were detached homes, which averaged \$302,167. While sales of detached homes are up marginally over the 544 recorded during the same time-frame last year, prices have risen a full seven per cent from the \$281,698 recorded during this earlier period. In addition, 241 sales of semi-detached homes were recorded in the January to September 2003 period for an average of \$278,296. This price figure is up 11 per cent from the \$250,989 average recorded in the first nine months of last year. ■
